-Twitterwurking: Mez Breeze-
http://mezbreeze.com

The following is a transcript of the Twitterwurk created during my **New Media Scotland Twitter Residency** in July 2008. The Residency consisted of:

1. The construction of a month-long project entitled **_Twitterwurking_** comprised of sequential "tweets" posted via a microblogging platform called Twitter. The work itself was written in my mezangelle language - a type of merging of programming languages/code with poetic elements. The Twitterwurk sought to incorporate specific users into the narrative by typing the "@" symbol before their name. The users were then made aware of this focused reply and thus deliberately enfolded into the tweetstream/project.
2. The production of a line of **_t[weet]shirts_** - a product line (including t-shirts) offered for sale through the New Media Scotland Spreadshirt store. These products were custom-printed with select phrases from the Residency tweets [eg "plot-fodder" "sign[ull]al.lost"].
3. A meta-commentary on the **_Twitterwurking_** project via my private Twitter account [**@netwurker**]. This meta-tweet stream initially offered daily comments on the characters and plot developments occurring during the Residency. During the course of the month, however, the meta-tweets began to morph into more than just a simple commentary, and began to develop into their own poetic narrative.
